THOMCO
CONVERTING AND DISTRIBUTION

Automotive Solutions

PRECISION AUTOMOTIVE PARTS

Thomco is a custom converting partner and 3M Preferred Converter who understands the unique needs and challenges of the automotive industry.

Since 1984, our experienced team of engineers has worked with OEM's and Tier Suppliers to develop customized solutions for all types of applications, including:

- Automotive sealing solutions, such as gaskets, bonding systems, and adhesive systems
- Surface protection for scratch-free assembly and transit
- Buzz, squeak and rattle prevention
- Noise dampening
- Light leak eliminations
- Thermal shielding

We are dependable, and YOU, our customer, are at the center of our service philosophy. You will be supported by a responsible team of automotive experts who research options, find alternatives, and make recommendations to fit your needs.

COMMITTED TO QUALITY

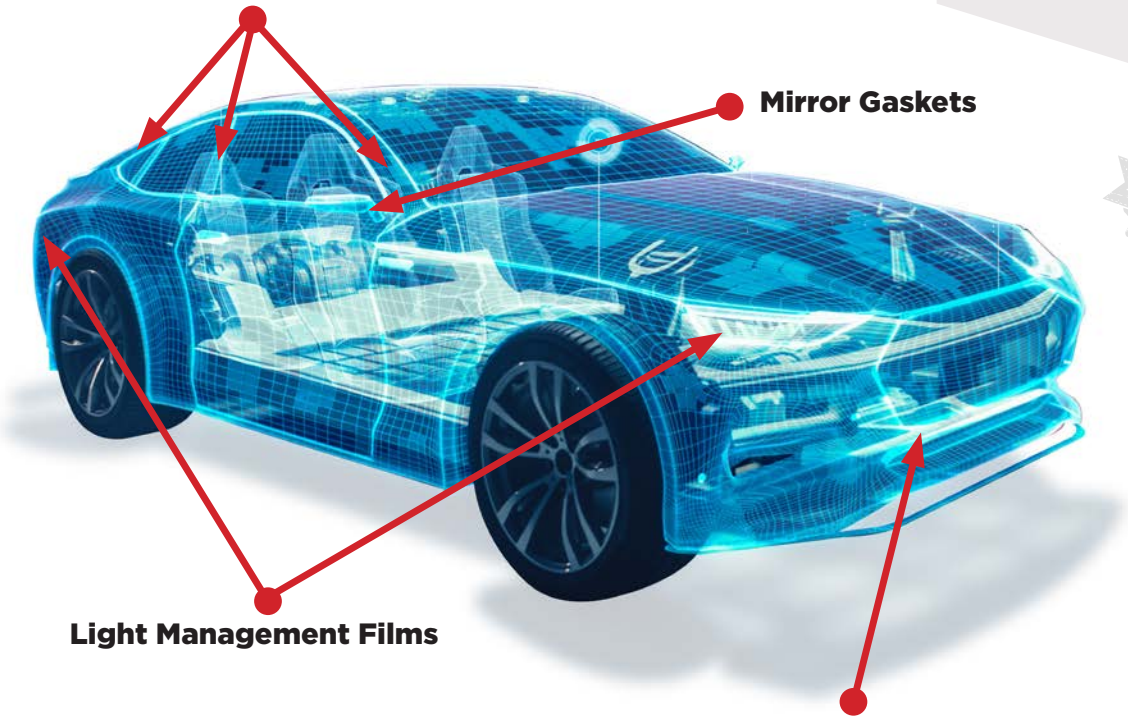
- ISO 9001 | IATF 16949 Registered
- Controlled CAR & SCAR System
- PPAPs: First Article Inspection
- AS 9102 First Article (Aerospace)
- UL Authorized label printer
- RoHS Compliant

SCIENCE FOR THE ROAD AHEAD

In the incredibly fast-moving world of mobility, one thing has become more crucial than ever: a reliable partner. For OEM and Tier design professionals, that means a partner who can draw on deep expertise in the automotive industry.

As one of an elite group of 3M Preferred Converters with automotive expertise, Thomco gives you access to the resources you need to enable lightweighting, dissimilar material bonding and structural integrity. We can help you manufacture efficiently, improve ride quality, and find your next innovation.

3M Preferred Converter



DIE-CUT PARTS

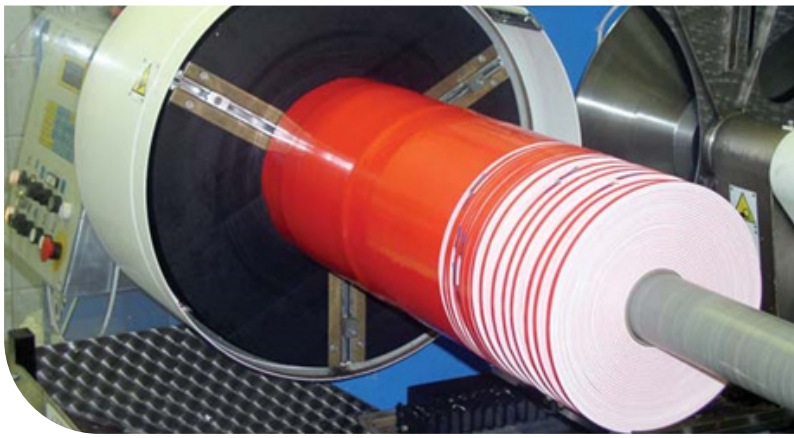
ROTARY DIE-CUTTING
- High speed, high volume
- Precision parts on thin, flexible materials

WATER JET CUTTING
- Precision cutting with ultra-high pressure water stream
- No heat stress or distortion
- No mechanical tooling required

FLATBED DIE-CUTTING
- Versatile solution for thicker parts (greater than .1875")
- Handles hard durometer materials
- Excellent for short runs

LASER CUTTING
- No mechanical tooling required
- Precision cuts on materials up to 1" thick
- Perfect fit for short-run production needs

CAD/PLOTTER CUTTING
- No dies or tooling required
- Handles materials up to 2" thick
- Optical registration for preprinted materials



PRINTING
- Digital, flexographic and thermal label printing
- Variable data options, including sequential codes and variable barcodes

SLITTING
- Roll-to-roll and lathe slitting
- Wide-web slitting/rewinding
- Tight tolerances on custom slit sizes from .080" to 63"

FINISHING OPTIONS
- Rolls, sheets, fan-folded, pieces, tabbed
- Customized solutions for specialized requirements

VISION INSPECTION
- Capabilities include 100% vision inspection for labels

From prototype to production, Thomco will provide you with everything you need for engineering and design, material sampling, and support for efficient manufacturing.
