

Label Solutions

Flexographic Printing | *Digital Printing*

thomco.biz

Two Printing Options, Plenty of Capacity

If you are looking for a label printing partner with plenty of capacity to meet your needs, Thomco is a partner to consider.

We are a UL authorized label provider. At our multi-shift manufacturing facility, we offer both flexographic and digital printing. We can laminate, die-cut inline, and we offer video inspection for critical applications.

Markets We Serve

- **Aerospace and Defense**
- **Appliances**
- **Architectural Applications**
- **Automotive and Transportation**
- **Commercial and Residential Floor Covering**
- **Electronics**
- **Food and Beverage**
- **General Industrial**
- **Medical and Healthcare**
- **Nutraceuticals**

Flexographic Printing

Thomco prints up to 13" rolls on our flexographic presses. These economical and versatile labels can be printed with up to 8-colors, including custom color and Pantone matching. At Thomco, you will get vivid colors, crisp type, and rich solids, and we produce both large and small runs on our flexographic presses.

Thomco can print on our flexographic presses with either UV or water-based inks. We have UV and aqueous coating options, and we can deliver labels in rolls, sheets or fan-folded.

Digital Printing

Our 4-color Konica Bizhub digital press requires no printing plates. Print quality compares to offset, and built-in color calibration technology ensures color fidelity from the first to the last label on your digital production run.

Thomco can aqueous-coat, UV varnish, or laminate digital labels. We use economical magnetic dies. Built-in optical registration guarantees die-cutting accuracy.

For short runs or quick turnarounds, digital printing at Thomco is the solution for you.

Variable Data Digital Label Printing

Thomco can help you with all your variable data digital label requirements including:

- **Variable Images**
- **Variable Text**
- **Consecutive Numbering**
- **Barcodes**
- **QR Codes**

100% Vision Inspection

Thomco can ensure every label is produced to your tolerances and quality standards with 100% vision inspection of your labels. Our system combines cameras and computer power to inspect for:

- **Blemish Detection**
- **Optical Character Recognition (OCR)**
- **Optical Character Verification (OCV)**

Other Benefits

- **Thomco is a UL Authorized Label manufacturer**
- **Rigorous quality systems and ISO 9001/IATF 16949 Registered**
- **We can produce tamper and moisture-resistant labels**
- **Our in-house graphics department can help with design or artwork updates**
- **We can store and ship, or set up just-in-time label ordering programs**
