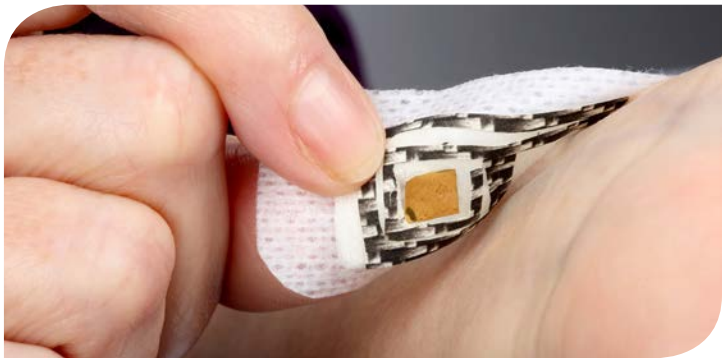
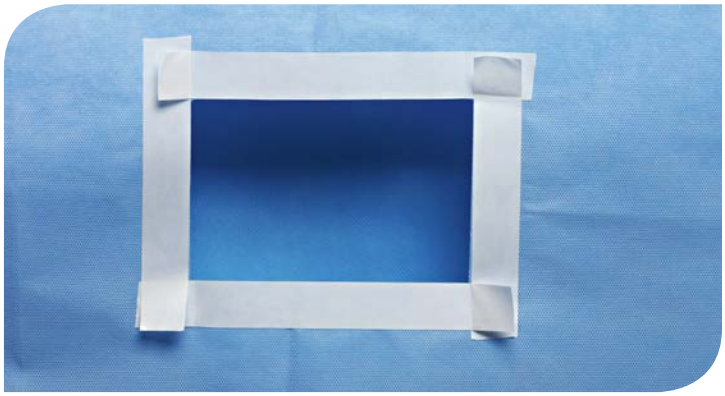
Precision Medical Parts and Specialty Medical Adhesives

Thomco is a 3M Medical Materials & Technologies Select Converter who understands the unique needs and challenges of companies that source medical adhesives and custom parts.

The markets we serve include:
- **Medical device parts and components**
- **Ostomy components**
- **Surgical gowns/drapes: Adhesives, tapes and fasteners**
- **Personal care, cosmeceutical and nutraceutical**
- **Diagnostic, bioanalytical, and microfluidics**

We are dependable, and we put YOU, our customer, at the center of our service philosophy. Our team of engineers and medical solutions experts will help you research options, considering all required product attributes. Thomco provides samples, prototypes, and recommendations to fit your application.





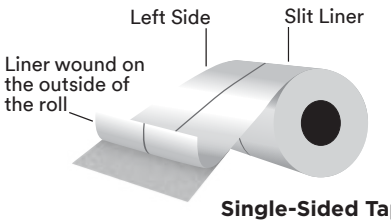
The Right Solution for Safety and Comfort

When choosing a product for a medical application, it is crucial to match usage with attributes, such as:
- Breathability
- Conformability
- Hydrophilic or hydrophobic requirements
- Printability
- Adhesion strength
- Release liner characteristics
- Product color
- Sterilization method
- Potential for repeat use
- Specific requirements for the adhesive material

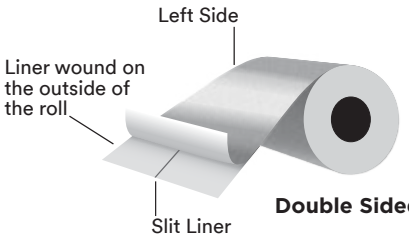
Custom Options for Tape Products

Thomco can convert tapes into widths and lengths to meet your specific requirements. We can also provide slit liners and/or extended liners on most tape products.

SLIT LINERS

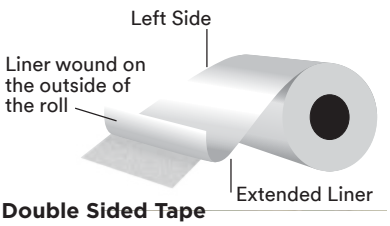


Single-Sided Tape

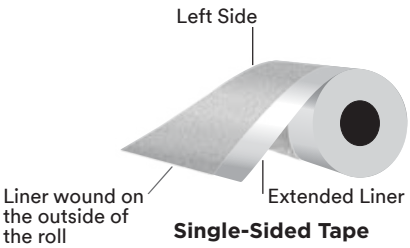


Double Sided Tape

EXTENDED LINERS



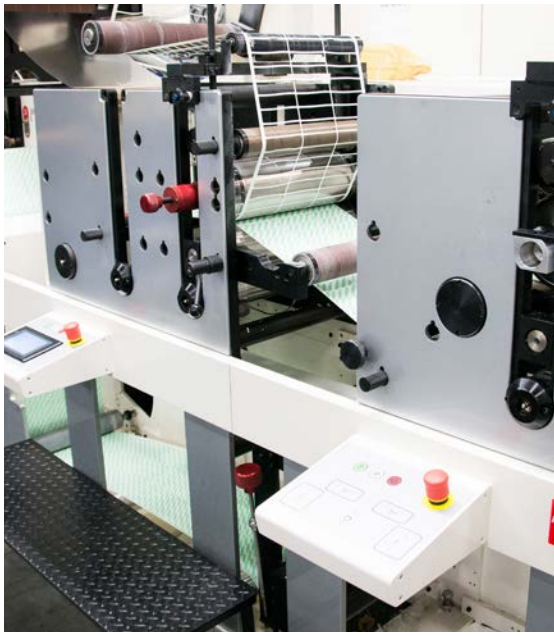
Double Sided Tape

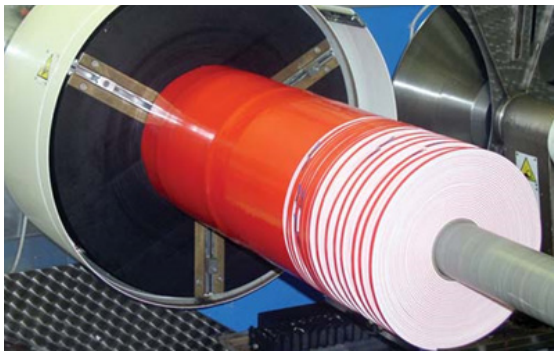


Single-Sided Tape

Print, Slit, and Convert at Thomco

Thomco's clean, modern facility has all the equipment you need for medical parts and adhesive solutions.





PRINTING
- Digital and flexographic label printing
- SGS Certified for Flexographic – Process Color and Spot Color
- Variable data options, including sequential codes and variable barcodes
- UDI labeling capabilities

DIE-CUTTING
- Rotary die-cutting for high volume precision parts on thin, flexible materials
- Flatbed die-cutting for thicker parts and short runs
- Laser cutting for precision cuts on materials up to 1" thick – no mechanical tooling required
- CAD/Plotter cutting requires no dies or tooling, handles thick materials, and has optical registration for preprinted materials
- Water jet cutting is a cold process, precision die-cutting process – no tooling required

SLITTING
- Roll-to-roll and lathe slitting
- Wide web slitting/rewinding
- Tight tolerances on custom slit sizes from .080" to 63"

FINISHING OPTIONS
- Rolls, sheets, fan-folded, individual parts, tabbed
- Customized solutions for specialized requirements

VISION INSPECTION
- Capabilities include 100% vision inspection for all printed and converted products

Thomco will provide everything you need for engineering and design, material sampling, and efficient manufacturing from prototype to production.

Committed to Quality

Thomco is an ISO 9001/IATF 16949 Registered Custom Converter. Our commitment to quality can be seen in all phases of the manufacturing process. Every employee is extensively trained, working to produce quality parts, and focused on continuous improvement.

Proud to Be a 3M Medical Materials & Technologies Select Converter

If it bonds, joins, tapes, seals, cushions, insulates, protects or prints, *Thomco is the answer.*

ABOUT THOMCO

Thomco is a custom converter, specialty distributor, and 3M Medical Materials & Technologies Select Converter, ready to help you find the right solution to meet your most demanding requirements while providing patients with safety and comfort. We are ISO 9001, IATF 16949 Registered, and a UL Authorized Label Printer.

Whether you need medical-grade labels, proprietary parts, or a specialized medical adhesive, our experienced team of engineers, equipment operators, technical support personnel, and account managers are ready to help. From start to finish, we collaborate with you on sampling, testing, designing, prototyping, and manufacturing to meet the exact needs of your medical application.
