Durable Label Solutions

When your labels must stand up to challenging conditions, Thomco delivers.

ENGINEERED FOR HARSH ENVIRONMENTS.

Manufactured to Your Specifications.

AT THOMCO, we manufacture durable labels engineered to meet your exact technical specifications and made to perform in the real world—delivering clear, consistent printing, strong adhesion to challenging surfaces, and resistance to moisture, chemicals, heat, abrasion, and UV exposure. Our labels are built for longevity, readability, and compliance—even in the most demanding environments. Backed by a team of engineers, substrate specialists, and print and converting experts, we offer digital, flexographic and thermal transfer printing to align with your production volume, speed, and application requirements.

COMMITTED TO QUALITY

We are an ISO 9001: 2015/ IATF 16949: 2016 Registered custom converter, recognized for meeting rigorous quality standards. Our commitment to excellence is reflected in every phase of our manufacturing process—and in every team member dedicated to printing and converting labels that meet your exacting requirements.

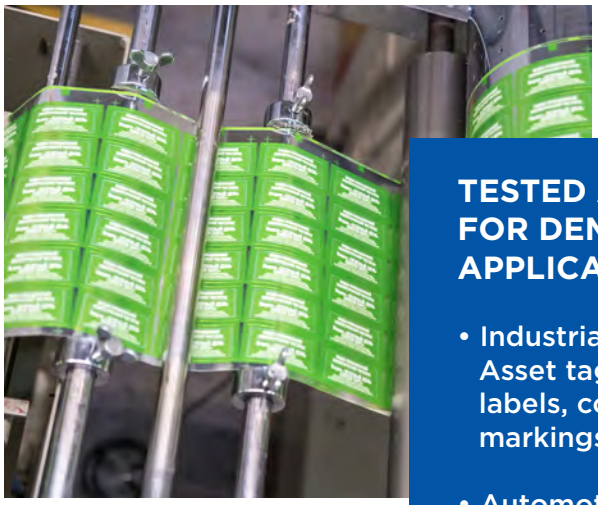
Thomco serves a diverse range of industries with its durable labeling solutions.

- Automotive
- Medical
- Electronics
- Industrial Manufacturing
- Packaging & Logistics
- Outdoor Equipment
- Aerospace
- Construction
- Chemical Processing
- Food & Beverage
- Retail & Consumer Goods



TESTED AND PROVEN FOR DEMANDING APPLICATIONS

- Industrial & Manufacturing: Asset tags, machinery labels, compliance markings
- Automotive & Aerospace: Under-the-hood, VIN, and performance-rated labeling
- Medical & Healthcare: Sterilization-proof, tamper-proof, and chemical-resistant labels
- Electronics & Electrical: Instructional and regulatory labels for equipment
- Outdoor & Harsh Environments: Marine-grade, weatherproof, and safety signage

SOLUTIONS OVERVIEW

SOLUTIONS FOR ASSET TRACKING & INVENTORY MANAGEMENT

Ensure every asset can be traced. We provide serialized barcodes, QR code systems, and RFID-enabled tags designed to survive rugged environments, high handling, and long-term use.

SOLUTIONS FOR COMPLIANCE & REGULATORY LABELS

Stay compliant with durable labels that meet regulatory requirements. We offer GHS-compliant chemical hazard labels, UL-recognized safety labels, and RoHS-compliant solutions built to withstand challenging conditions and stay legible over time.

SOLUTIONS FOR INDUSTRIAL EQUIPMENT LABELING

Machinery and equipment demand labels that stay readable and securely adhered. Our solutions include instructional, maintenance, and inspection labels that adhere to powder-coated, oily, or curved surfaces and remain legible in demanding industrial settings.

SOLUTIONS FOR AUTOMOTIVE & AEROSPACE APPLICATIONS

Built for speed, heat, and the long haul, we print and convert labels that withstand engine heat, oil exposure, and rough road conditions—perfect for VIN tags, emissions control, under-the-hood, and component-specific applications.

MEDICAL LABELING

From sterilization to sample tracking, accuracy and adhesion are crucial. We produce chemical and temperature-resistant labels for medical devices and sterile packaging.

SOLUTIONS FOR ELECTRONICS & ELECTRICAL APPLICATIONS

Precision matters. Our labels are designed for tight spaces, high temperatures, and critical performance, delivering reliable adhesion where it counts.

SOLUTIONS FOR OUTDOOR & ENVIRONMENTAL EXPOSURE

Labels that withstand sun, rain, and abrasion. Whether you're marking marine equipment, job site hazards, or other exterior items, our outdoor-rated labels are waterproof, UV-resistant, and manufactured to last.

SOLUTIONS FOR PACKAGING & LOGISTICS

From warehouse to final destination, your label needs to travel as far as your product. Our high-tack shipping labels, pallet tags, and batch/lot labels support visibility, tracking, and compliance.

TAMPER-EVIDENT SECURITY LABELS

When security and traceability matter, Thomco offers tamper-evident label solutions that reveal unauthorized access. Choose from destructible films, VOID messages, or triangle-pattern indicators to safeguard your product—and your reputation.

FLEXIBLE PRINTING SOLUTIONS

At Thomco, we provide flexibility, capacity, and expertise to meet your durable labeling needs—whether you're producing a small run of variable data labels or a high-volume order with specialty finishes.

FLEXOGRAPHIC PRINTING

Perfect for high-volume production, our flexographic presses print up to 8 colors, including 4-color process, with options for inline lamination, die-cutting, and video inspection. It's the ideal choice for long runs requiring durability, brand consistency, and specialty finishes.

DIGITAL PRINTING

Our digital presses produce high-quality 4-color labels with fast turnaround and no plate costs. It's a smart solution for short runs, multiple versions, quick changes, and variable data printing such as sequential codes and barcodes. Setup is quick and efficient, helping you get to market faster.

THERMAL TRANSFER PRINTING

Thomco also offers stock and custom thermal transfer labels for applications that require variable information on demand. With no plate costs and outstanding barcode clarity, thermal transfer is an excellent option for sequential numbering, product identification, and batch tracking.

Our multi-shift manufacturing facility provides the capacity and flexibility to meet challenging timelines. As a UL authorized label provider, we produce labels using three proven print technologies: flexography, digital printing, and thermal transfer.

At **THOMCO**, we don't just print labels—we solve labeling challenges. Our team understands the technical, environmental, and regulatory demands you face, and we build solutions that align with your priorities. Let's create a durable label strategy that supports your workflow, protects your brand, and delivers lasting performance.

If it bonds, joins, tapes, seals, cushions, insulates, protects or prints, *Thomco is the answer.*

ABOUT THOMCO

Thomco helps customers improve their processes and reduce labor costs. Along with design flexibility, we specialize in unique solutions for your business that ensure even your toughest requirements are met.

Whether you need labels, proprietary parts, or an industrial bonding solution, our experienced team of engineers, press operators, customer service and sales representatives will collaborate with you for sampling, testing, designing, prototyping, and manufacturing to meet the exact specifications of your application.
